

## **Freie Mitteilungen 12 - From Planning to Reintervention: Advances in Aortic Endovascular Therapy**

**Saturday, 25 Oct 2025, 10:30 a.m. - noon, Deuxième**

---

Chair: Alexander Oberhuber (Münster), Sébastien Déglise (Lausanne), Sabine Wipper (Innsbruck)

---

### **Circulating monocyte populations as biomarker for abdominal aortic aneurysms: a single-center retrospective cohort study**

Presenting Author: Johannes Klopf

---

### **Growth in proximal landing zone after thoracic endovascular aortic repair**

Presenting Author: Jan Stana

First Author: Tugce Öz

---

### **Early and mid-terms outcome of fenestrated thoracic endovascular repair physician-Modified Thoracic Endografts (f TEVAR PMEG) for Thoracic Aorta's treatment.**

Presenting Author: Guillaume Le Fevere de Ten Hove

---

### **Plug based versus suture based vascular closure devices for percutaneous large bore aortic procedures**

Presenting Author: Kareem El Sherbiny

---

### **Failed EVAR, Redo Procedures**

Presenting Author: Reza Ghotbi

---

### **Validation of a 3D-Printed, Patient-Specific and Perfused Aortic Model in Stanford Type B Aortic Dissections**

Presenting Author: Marcello Mächerle

---

### **Mycotic AAA-casuistics and treatment options**

Presenting Author: Thomas Karl
