

## **Freie Mitteilungen 12 - From Planning to Reintervention: Advances in Aortic Endovascular Therapy**

Samstag, 25. Oktober 2025 10:30 - 12:00, Deuxième

---

Chair: Alexander Oberhuber (Münster), Sébastien Déglyse (Lausanne), Sabine Wipper (Innsbruck)

---

### **Circulating monocyte populations as biomarker for abdominal aortic aneurysms: a single-center retrospective cohort study**

Vortragender AutorIn: Johannes Klopf

### **Growth in proximal landing zone after thoracic endovascular aortic repair**

Vortragender AutorIn: Jan Stana

Erster AutorIn: Tugce Öz

### **Early and mid-terms outcome of fenestrated thoracic endovascular repair physician-Modified Thoracic Endografts (f TEVAR PMEG) for Thoracic Aorta's treatment.**

Vortragender AutorIn: Guillaume Le Fevere de Ten Hove

### **Plug based versus suture based vascular closure devices for percutaneous large bore aortic procedures**

Vortragender AutorIn: Kareem El Sherbiny

### **Failed EVAR, Redo Procedures**

Vortragender AutorIn: Reza Ghotbi

### **Validation of a 3D-Printed, Patient-Specific and Perfused Aortic Model in Stanford Type B Aortic Dissections**

Vortragender AutorIn: Marcello Mächerle

### **Mycotic AAA-casuistics and treatment options**

Vortragender AutorIn: Thomas Karl
